Type Ia Supernovae standardisation and its dependence on environment with ZTF

Wednesday, May 22, 2024 4:30 PM (20 minutes)

I will present new results on Type Ia supernovae standardisation, found in the ZTF Cosmo-DR2 sample in its volume limited version. I will focus on the dependence on environment of the stretch and colour standardisation parameters.

Presenter: GINOLIN, Madeleine (IP2I)
