Lundi 22 Mars 2010 à 11 :00

Forward-backward and CP-violating asymmetries in rare $B_{d,s} \rightarrow V \gamma$ and $V l^+ l^-$ decays

We study the forward-backward and the CP-violating asymmetries (both time-independent and time-dependent) in rare semileptonic and radiative B decays. We investigate the sensitivity of these asymmetries to the extensions of the Standard Model. A pedagogical introduction will be given before we present our recent results.

Salle 101 du LAL - Bât. 200, Orsay

Thé et café seront servis 1/4 h avant le séminaire

Responsables : N.Leroy (leroy/lal.in2p3.fr) - B. Viaud (viaud/lal.in2p3.fr)
