

Keynote - Overview of the ESA Euclid mission in the context of ESA Science today

mardi 10 juin 2025 09:40 (40 minutes)

After a brief introduction of the ESA Science programme I will focus on an overview of the ESA Euclid mission: I will describe mission objectives, challenges, main milestones so far, the first data release.

I will also mention a few ESA programmes dedicated to interns, graduate students, and postdocs.

Orateur: PETTORINO, Valeria (ESA ESTEC)

Classification de Session: COLOURS Workshop
