

Séminaire du Laboratoire de l'Accélérateur Linéaire

Bruce Mellado

University of Wisconsin

Mardi 6 Juillet 2010 à 11 :00

Prospects of first Higgs searches with ATLAS

The prospects for Higgs searches with the first data with the ATLAS detector are reviewed. The most prominent final states are considered. This involves reviewing detector performance and physics analysis strategies with the first data. The latter includes defining data-driven approaches to background extraction.

Salle 101 du LAL - Bât. 200, Orsay

Thé et café seront servis 1/4 h avant le séminaire

Responsables : N.Leroy (leroy/lal.in2p3.fr) - B. Viaud (viaud/lal.in2p3.fr)
