

“Les Mains Dans Le RAG!”

What is RAG?

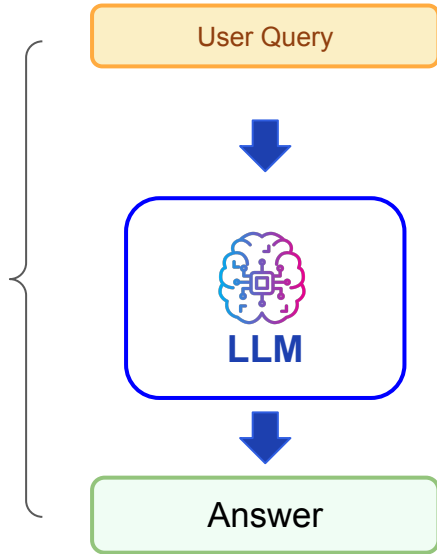

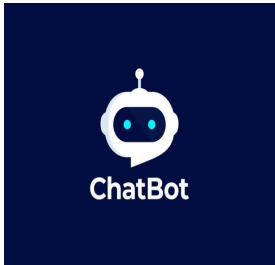

RAG = Retrieval-Augmented Generation

RAG is a technique that helps you connect your data to Generative AI models.

Without RAG vs With RAG

Without RAG vs With RAG

Without RAG = LLM-only ChatBot

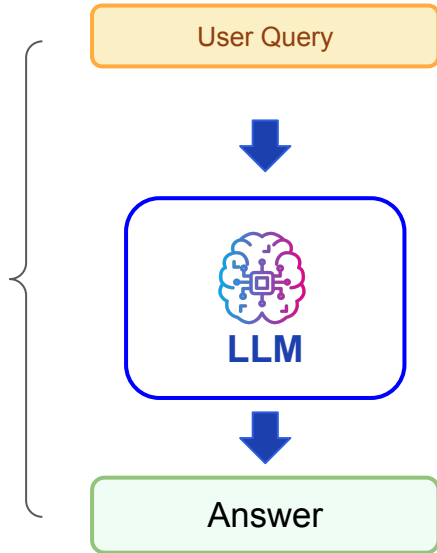

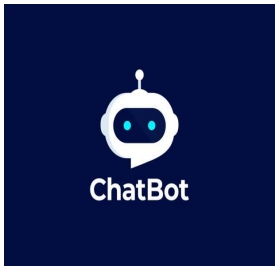

Example: What is the mission of the SPR at IJCLAB? (Troubles ...)

Without RAG vs With RAG

Without RAG = LLM-only ChatBot

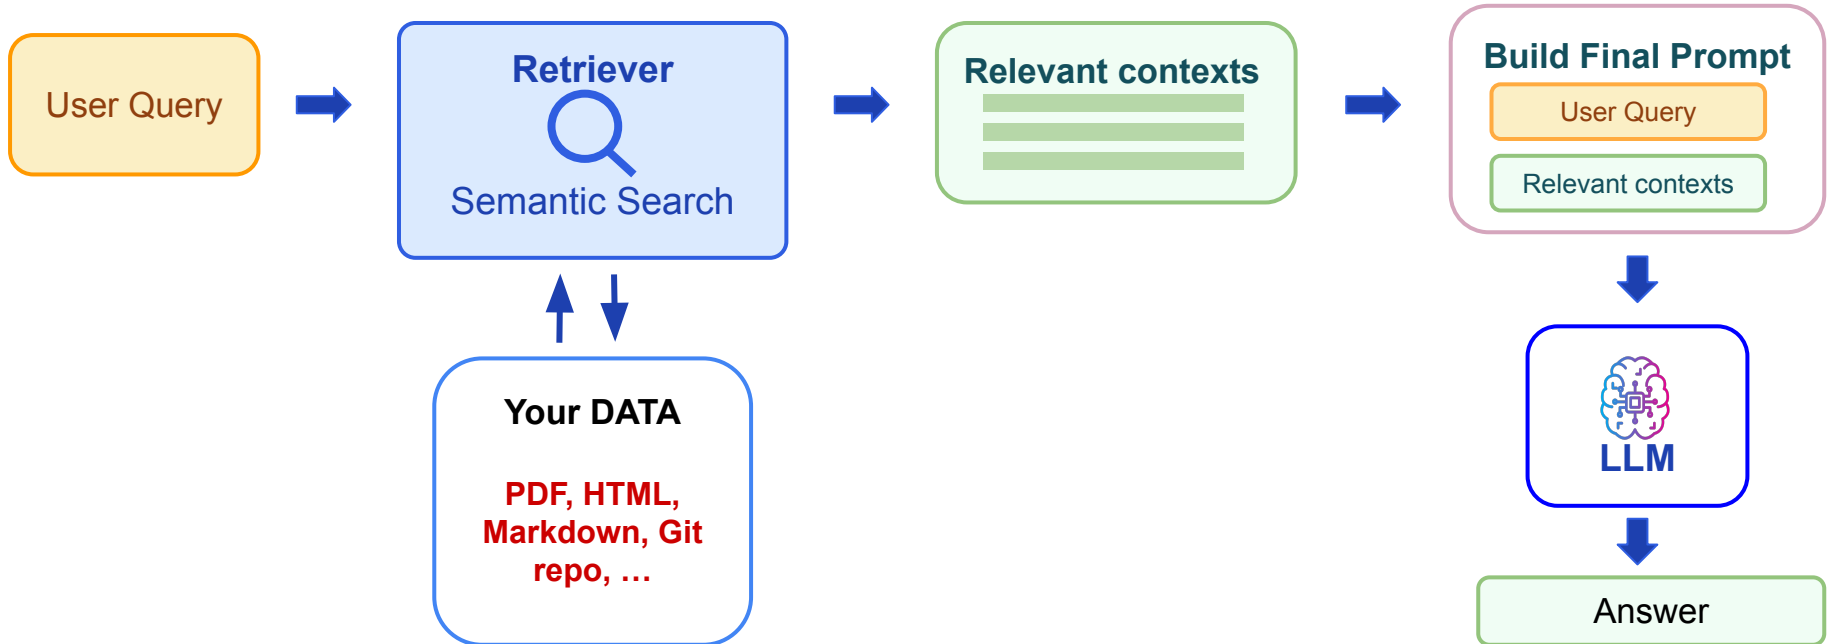

With RAG = ChatBot on Your DATA

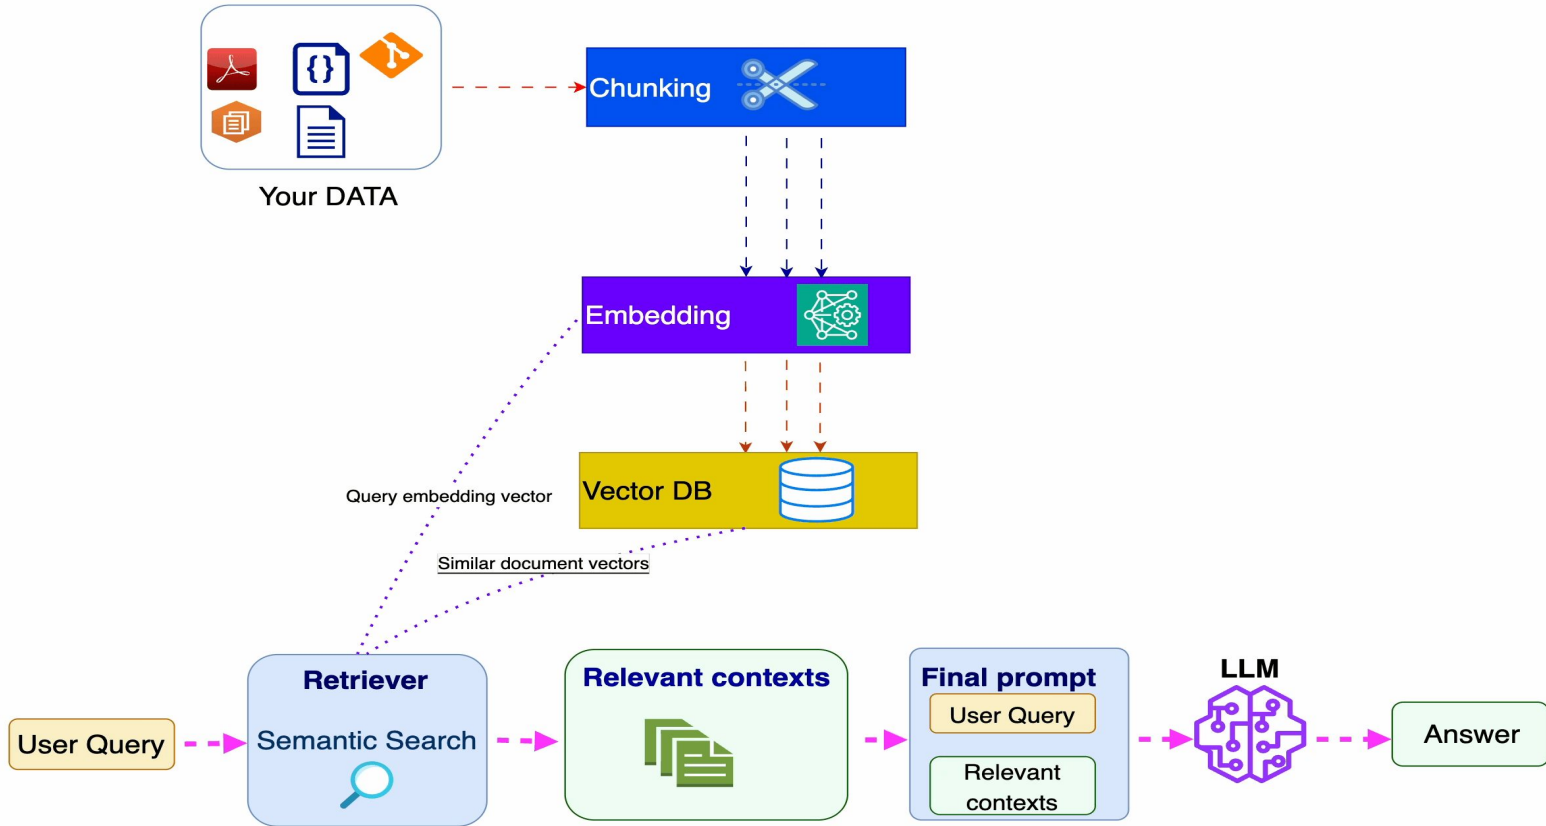

Example: What is the mission of the SPR at IJCLAB? (Troubles ...)

How it works
