

CMB-France

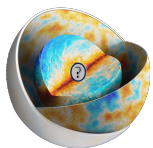

CMB-France

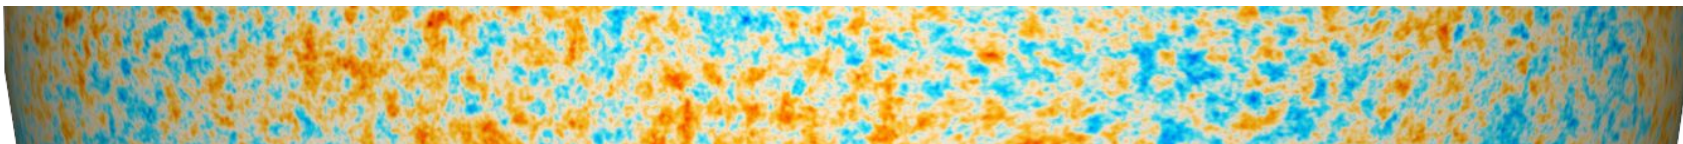

- **Created:**
in 2021 following the roadmap exercise for CNES/CNRS review
- **Objective:**
Bring together the French CMB community, gathering researchers from INP, IN2P3, INSU, CEA.
- **Coordination:**
F. Bouchet & M. Tristram (with help of many !)
- **7 meetings organized (60-90 participants/yr)**
 - Colloque National CMB-France #1 (2–3 juin 2021)
 - Colloque National CMB-France #2 (15–16 nov 2021)
 - Colloque National CMB-France #3 (20–21 juin 2022)
 - Colloque National CMB-France #4 (22-23 nov 2022)
 - Colloque National CMB-France #5 (4-5 dec 2023)
 - Colloque National CMB-France #6 (18-19 dec 2024)
 - Colloque National CMB-France #7 (13-15 oct 2025)
- web page: <https://cmb-france.cnrs.fr>
- mailing-list: <https://listes.services.cnrs.fr/wws/info/cmb-france>

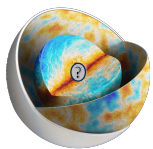

CMB-France support

- Opportunity to meet
 - instrumentalists, data-analysts, phenomenologists, theoreticians
 - propagate information and news
 - share results and progresses
- Support young researchers (PhD and postdoc)
 - opportunity to present their results (even preliminary!) in a national workshop (12 talks for postdocs, 15 for PhD over 43 talks in 2025)
- Targeted discussions
 - discuss strategy and opportunities (e.g., letter of support for CosmoCal)
 - discuss organisation of CMB community across institutions (INSU, IN2P3, INP, CEA, CNES, CNAP, ...)
- Support participation to existing and future CMB experiments
 - Simons-Observatory, SPT3G+
 - LiteBIRD (JAXA), FOSSIL (M8), BISOU (Balloon)

CMB-France #7

13–15 oct. 2025, IAP, Paris

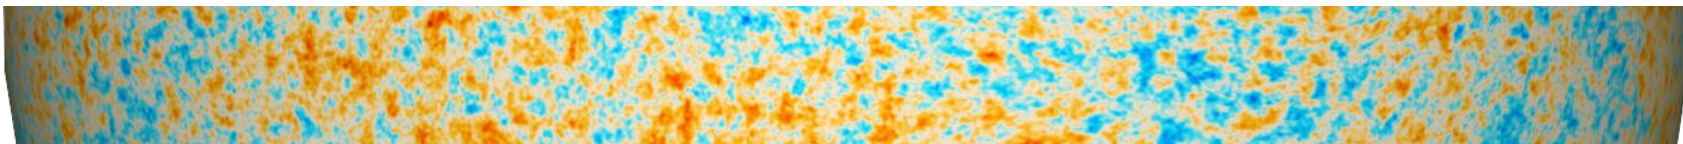

- 4 half-days on 3 days
- more than 75 participants

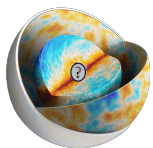

Colloque national CMB-France #7

13–15 Oct 2025
Institut Astrophysique de Paris
Europe/Paris timezone

<https://indico.in2p3.fr/event/36914/>

- main topics
 - results from the ground-based experiments (ACT, SPT3G)
 - cosmological constraints w/wo combination with other cosmological probes (KiDS, DESI)
 - news from CMB experiments (SO, SPO, LiteBIRD, FOSSIL, BISOU, PICO)
 - a wide range of topics:
 - tSZ, kSZ signal, (de)lensing, theory, spectral-distortions, methodology, algorithms, ...
 - Round-table after ending of CMB-S4

Next meeting

- CMB-France #8
 - october/november 2026
 - **Help more than welcomed !**
 - **Stay tuned !**
