Rubin-LSST : status and plans

lundi 1 juin 2026 16:30 (30 minutes)

I will review where the Rubin project stands one year after the first on-sky images, describing the observatory performances and some highlights of the passed year.

I will also discuss the future plans, focusing particularly on the content of the Data Preview 2, a Science Validation dataset planned to be released this Summer.

Orateur: M. GUILLEMIN, Thibault (LAPP)

Classification de Session: Monday afternoon
