

mar. 22 septembre

09:00

Photocathode related studies

Session | Site: IJCLab, 100/-1-A900 - Auditorium Joliot Curie

09:00 - 09:20

Electron beam from laser-cooled atoms: lateste developemnts at Eindhoven

Orateur

Julius Huijts

09:20 - 09:40

Ultrafast Electron Diffraction Sources and Photocathode R&D at Tsinghua University

Orateur

Renkai Li

09:40 - 10:00

Compact all optical terahertz (THz)-driven electron source

Orateur

Nicolas MATLIS

10:00 - 10:20

Terahertz excitations : TBC

10:20 - 10:50

Coffee break

10:50
