

French-Ukrainian Workshop

Instrumentation developments for high energy physics

IJCLab, Building 200, Orsay - France

October 12-14, 2026

dedicated to the memory of Mykola F. Shulga

Review and original presentations

- Accelerators and beam monitoring
- Detectors
- QED in matter
- High-energy physics
- Neutrino physics
- Medical applications
- Experimental platforms
- Other joint developments

“IDEATE: Instrumentation Developments for Experiments at Accelerator facilities and accelerating TEchniques”

Collaboration between CNRS, CEA and Universities from French side
and leading research Institutes and Universities from Ukrainian side

<http://ideate.ijclab.in2p3.fr>

- **Research and educational components of the LIA:**
students become major actors in scientific projects
- **> 120 participants > 30 FTE**

11 years of LIA/IRP IDEATE

Workshop dedicated to the memory of Mykola F. Shulga

Practical information

VENUE & SCHEDULE

- Workshop: **Building 200, Room 139** — If the entrance door is closed, please contact the receptionist
- Coffee breaks: in this room
- Presentations: 15 min + 5 min for questions — please respect the allocated time
- **Group photo:** Today, after the first session, just before the coffee break

VISITS

- Tuesday, evening — **CPO** (Centre de Protonthérapie d'Orsay) [Google Maps](#)
Places are very limited, priority for visiting participants
- Wednesday, 16:00 — **MOSAIC** — please let us know if you would like to join the visit

LUNCH & DINNER

- **Lunch:** CESFO university canteen in Bures [Google Maps](#)
We will walk there together after the morning session
Visiting guests: collect lunch tickets from Alex or Sergey during the coffee break
- **Welcome dinner:** Today, 12 October, at 19:00
Le Gramophone, 27 Boulevard Dubreuil, Orsay (~20 minutes walk) [Google Maps](#)
