Unimplemented Tasks

jeudi 3 mars 2011 15:00 (10 minutes)

<p> LAL: none <p> <p> SixSq: STRATUSLAB-387 : Investigate: extra disk is not provided to Ubuntu instance. STRATUSLAB-295 : As a StratusLab User CLI user, i want to use my own init.sh script. STRATUSLAB-304 : Fix tarball installation of user cli STRATUSLAB-301 : Wrong number of cores reported for VMs (is this still an issue?) STRATUSLAB-390 : Add test to Tester (MarketPlace download) <p> <p> GRNET: STRATUSLAB-337 : Rehearse reference service upgrade to StratusLab 0.3 <p> <p> IBCP: STRATUSLAB-313 : As a bioinformatics user, I can deploy a bioinformatics appliance with pre-defined bioinformatics applications. STRATUSLAB-314 : As a bioinformatics user , I have access to a persistent biological databases repository STRATUSLAB-336 : As a bioinformatics VO admin, I can deploy a bioinformatics appliance to set up a central biological databases repository for my VO <p> <p> TCD: STRATUSLAB-397 : As a Marketplace user, I can visualize the information in the server via an html representation

LAL Tasks

jeudi 3 mars 2011 15:30 (20 minutes)

Quattor Configuration:

- STRATUSLAB-373: As a StratusLab system administrator, I can use a Quattor configuration module to configure the authentication proxy. (see package in yum repository)
- STRATUSLAB-322: As a Quattor/StratusLab developer, I can evaluate changes to the Quattor configuration via automated installs.
- STRATUSLAB-395: As a StratusLab tester, I can have the LAL test machine reinstalled regularly via a cron.

Hudson:

- STRATUSLAB-375: As a StratusLab member, I can trigger automated generation of release packages. (release view)
- STRATUSLAB-396: As a StratusLab developer, I can see the status of all software builds via appropriate jobs within hudson (all jobs view, "site" information also generated)

Documentation:

- STRATUSLAB-342: Clean up the wiki and documentation in preparation for release 0.3 (download)
- STRATUSLAB-374: Add documentation on the wiki for the configuration of the authentication proxy. (authentication page)
- STRATUSLAB-365: Provide updated forensics document (on the wiki) explaining where analysis information can be found. (log information page)
- STRATUSLAB-369: As a StratusLab user or administrator, I can understand metadata handling through an expanded Marketplace technical note (document)

Authentication Proxy:

- STRATUSLAB-402: Authentication server will not start if /etc/grid-security/certificates does not exist. (confirmed fixed by Meb in smoke tests)
- STRATUSLAB-367: As a StratusLab administrator, I can use hashed or obfuscated passwords in login-pswd.properties file (authentication page)
- STRATUSLAB-398: URL encode the usernames passed through the authentication proxy
- STRATUSLAB-403: Treat oneadmin user specially in the authentication proxy and pass the actual hashed password to OpenNebula (confirmed by Meb in installation tests)

Misc:

- STRATUSLAB-371: Verify checksums based on binary value rather than hex representation (test added to metadata code)
- STRATUSLAB-364: Quarantine scripts should be split from the OpenNebula package to allow installation on SSH controlled hosts (see quarantine cleanup rpm in yum repository)
- STRATUSLAB-401: Testpolicy.py should be written as unit test

Orateurs: Dr LOOMIS, Charles (LAL-Orsay); TEZIER, Gabriel (CNRS/LAL); M. PHILIPPON, Guillaume (LAL - CNRS); Dr AIRAJ, Mohammed (CNRS/LAL)

GRNET Tasks

jeudi 3 mars 2011 16:10 (20 minutes)

 STRATUSLAB-334: Certify the virtualized grid STRATUSLAB-335: Enable shared storage among the reference service nodes STRATUSLAB-337: Rehearse reference service upgrade to StratusLab 0.3

Orateur: M. FLOROS, Evangelos (GRNET)

SixSq

jeudi 3 mars 2011 16:30 (20 minutes)

Testing:

- STRATUSLAB-400: Re-create smoke test job in Hudson working on LAL slave STRATUSLAB-383: Implement ssh retry logic to work around possible network flakeyness. STRATUSLAB-384: Add test to Tester for create image STRATUSLAB-317: Configure local ip with local ip/mac pairs and test the NAT feature already implemented in Tester.py STRATUSLAB-389: Add test to Tester for this feature (Quota)

MarketPlace:

- STRATUSLAB-394: MarketPlace upload

Misc.:

- STRATUSLAB-290: StratusLab client should provide reasonable error message if python version is not acceptable STRATUSLAB-296: stratus-sign-metadata doesn't work with tarball installation

Orateurs: KONSTANTIN; MEB
