

Deprecation / deletion of metadata manifests in the Marketplace

mercredi 22 juin 2011 14:00 (30 minutes)

STRATUSLAB-632 As a Marketplace user I can deprecate/delete a metadata entry

Discussion

- * Change validity dates to past (not true deprecation / deletion)
- * Use deprecation field
- * Changes to CLI and / or server
- * Deprecation status should be clear and definite in manifest file
