Roadmap for high energy physics in Japan and KEK

KEK established its first research Roadmap (5 year plan, 2009-2013) in 2008. Since then, we have been pursuing realization of research projects according to this Roadmap. In March 2012, the Japanese high energy physics community published a report on Future Projects of HEP. Then the update process of the KEK Roadmap started, and recently the final draft of the new Roadmap (KEK Roadmap 2013) was made available to research communities. I will describe the status of high energy physics projects in Japan and our future plan according to the new KEK Roadmap.

Auditorium Pierre Lehmann du LAL - Bât. 200, Orsay

Thé et café seront servis 1/4 h avant le séminaire

Responsable : N. Delerue (seminaires@lal.in2p3.fr)- [http ://www.lal.in2p3.fr](http://www.lal.in2p3.fr)
