

# Workshop LAL-Ukraine on instrumentation

## mercredi 22 mai 2013

### Detectors for nuclear physics experiments - Salle Bleue/Salle 100(208) (09:30 - 10:45)

time	[id] title	presenter
09:30	[15] Hybrid microdetectors for interference phenomena studies in multi-particle nuclear reactions	PUGATCH, Valery
10:00	[16] Detector setup for the Coulomb impact studies on the observed properties of two-fragment resonances	PAVLENKO, Yuri
10:30	[2] Discussion
