

Some preliminary result of Cylinder antenna

Frequency respond of channel 1 (auto-correlation),
Integration time:4800second, no man-made interference found

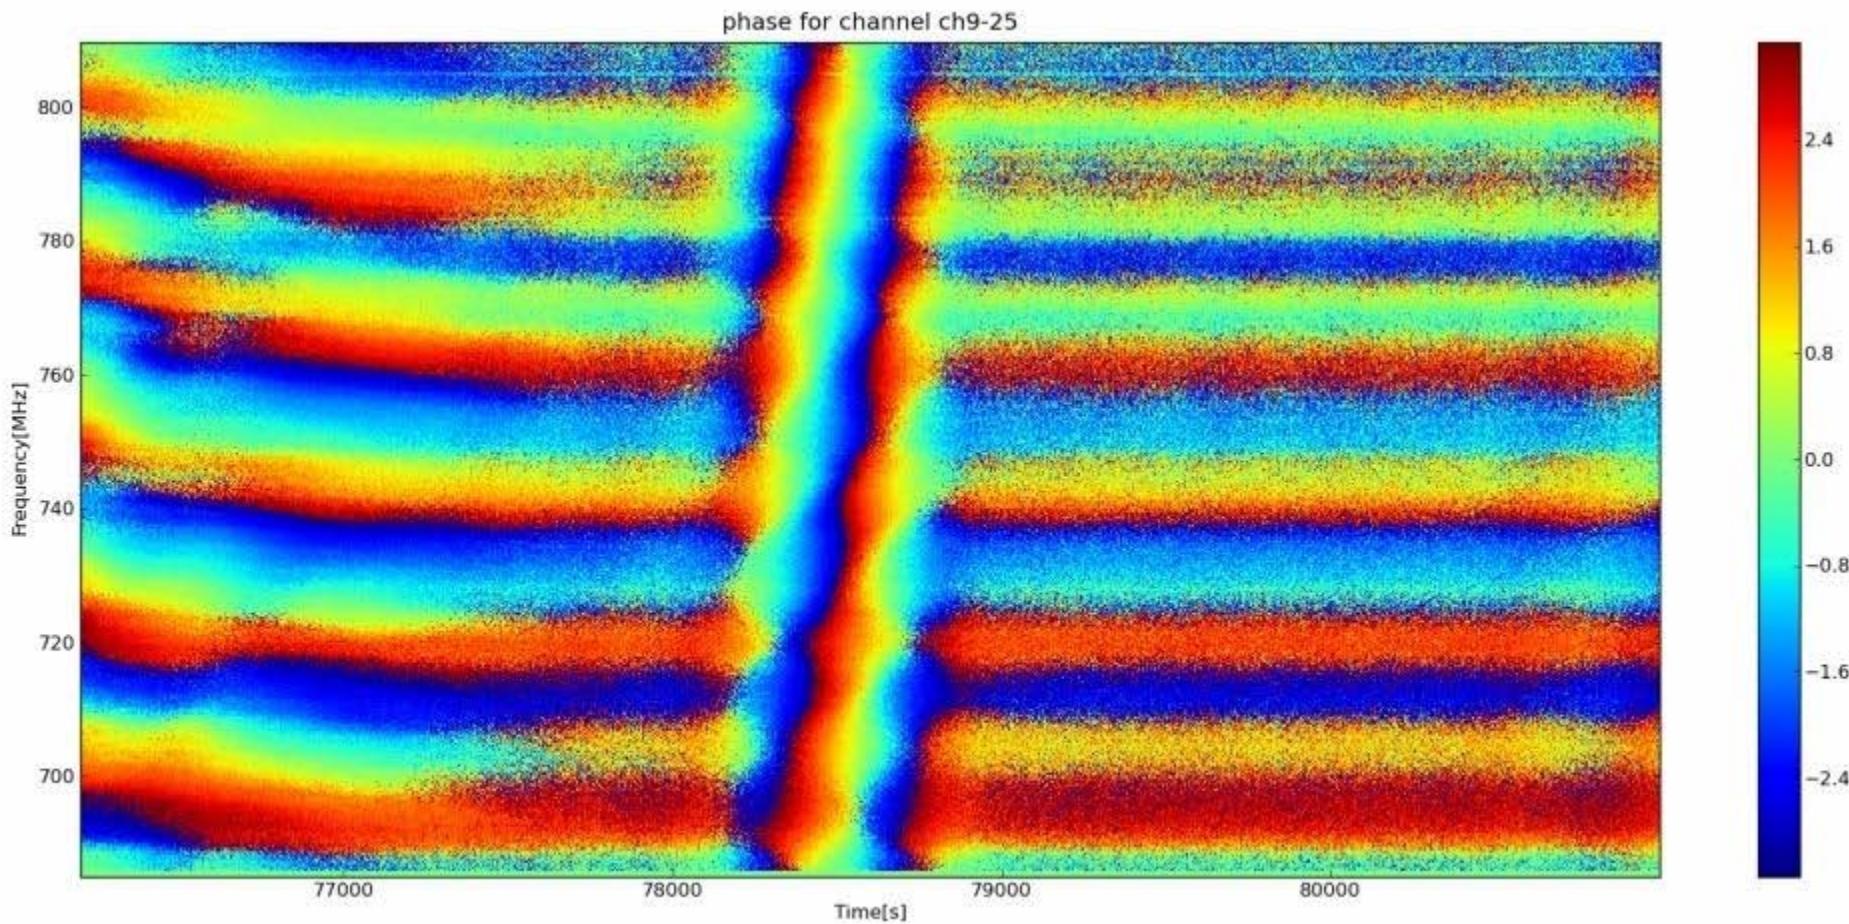

Phase of Virgo A,
time: 2015/3/15 02:56:21
az = 180.00, alt = 58.14 @ transit

Phase of Crab Nebular

time: 2015/3/15 19:57:24

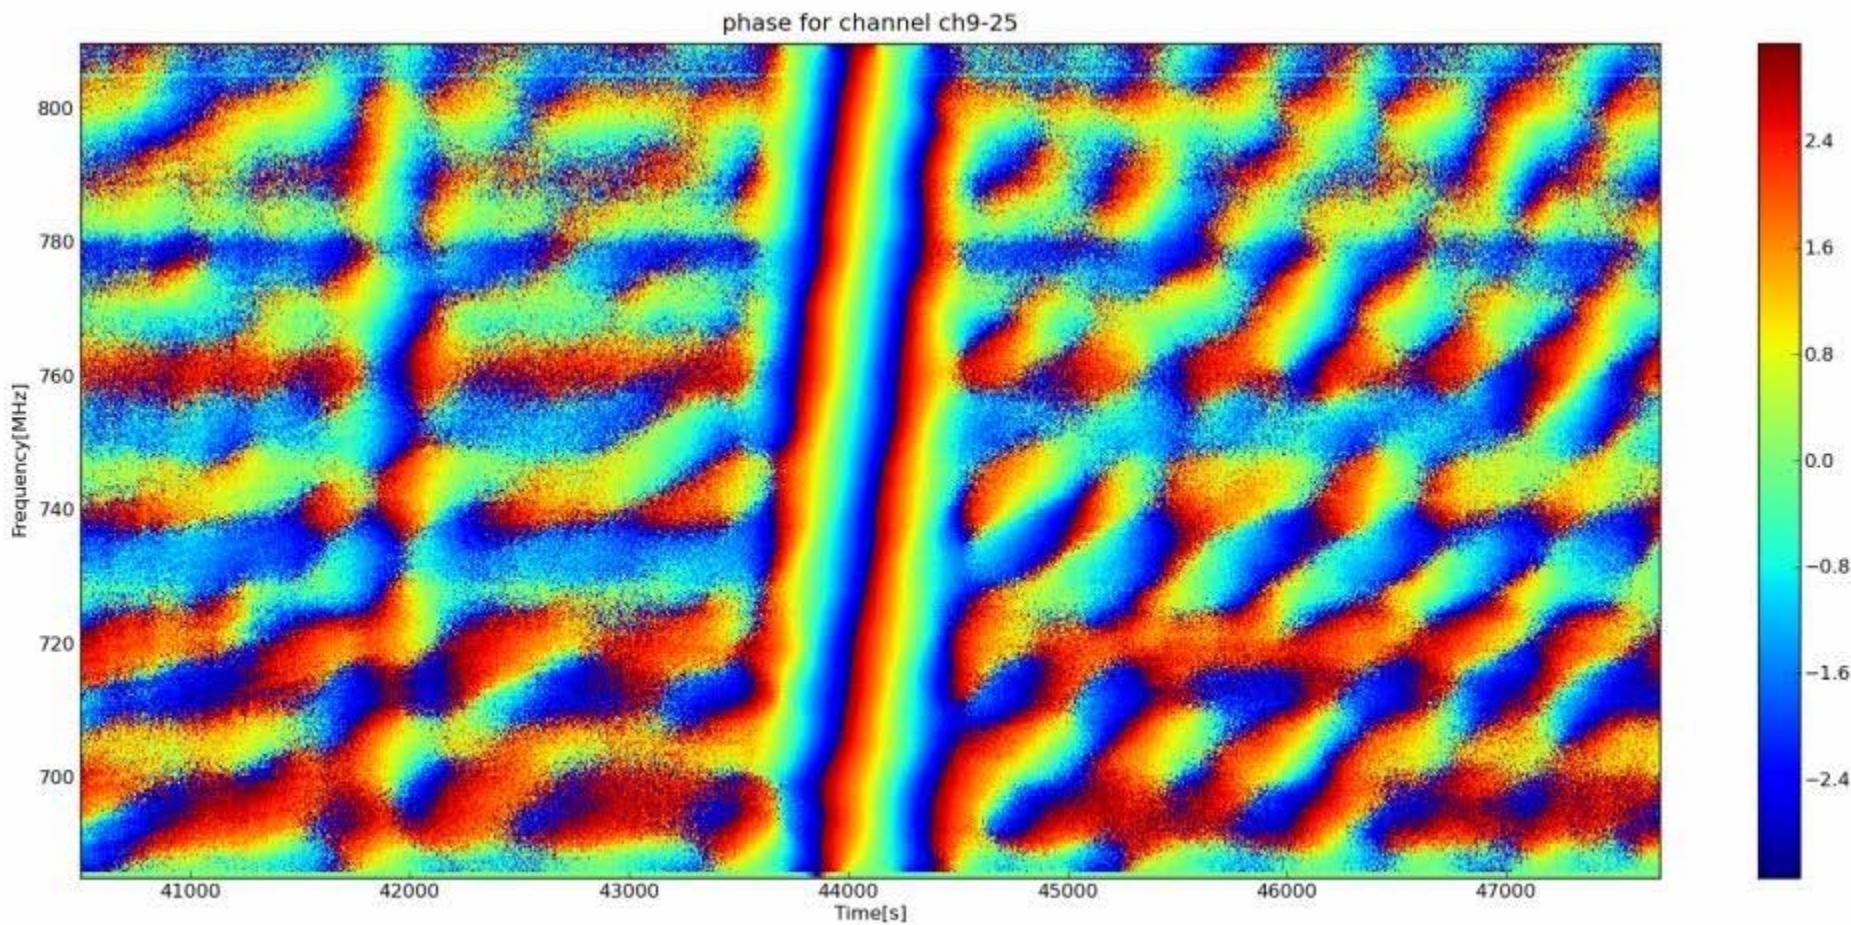

az = 180.00, alt = 67.85 @ transit

Phase of Cygnus:

time: 2015/3/15 10:23:30

az = 180.00, alt = 86.60 @ transit

One souce with flux=37.7 Jansky

time: 2015/3/15 04:36:20

az = 360.00, alt = 82.04 @ transit

This is to say that system temperature is less than 100K
