

Séminaire du Laboratoire de l'Accélérateur Linéaire

Pavel Nadolsky

Southern Methodist University, USA

Mardi 19 Avril 2016 à 11 :00

**Parton distribution functions for the LHC
Run-2**

Parton distribution functions are essential for a variety of collider applications. Significant effort has been put recently into understanding uncertainties of PDFs and proper procedures for their application. I review the latest progress in determination of PDFs using the LHC data and new recommendations for PDF applications developed by the PDF4LHC working group.

Salle 101 du LAL - Bât. 200, Orsay

Thé et café seront servis 5 mn avant le séminaire

Responsables : N. Delerue et R.Tanaka (seminaires@lal.in2p3.fr)- <http://www.lal.in2p3.fr>
