

Fermilab Tianlai Funding Update

- NSF program officer 6/24/16: *(I) do plan to recommend this for an award. Assuming all goes well (99% chance) you will get an award letter in 3-6 weeks.*
- CAS/DOE grant: FNAL Directorate: 7/11/16: Go ahead with any proposal but the Directorate would have some say in which cooperative projects would be selected and he wasn't sure that ours would be a priority.
- What should we propose to do w/ CAS/DOE grant?
 - Travel (exchange) program?
 - Hard/Soft ware for transient detection? (diversion of effort?)
