

A few useful informations to reach the Laboratoire Charles Coulomb and the workshop meeting room 'salle 'Grande Ourse'):

From the train station, take the tram 1 (blue one) direction 'mosson': and stop at 'université des sciences et lettres' then follow the main road on the right (with respect to tram direction): 'avenue Auguste Fliche': university entrance is about 200 m away, just nearby a strange large piece of art that you can't miss and should see from the tram stop (picture attached), also attached the campus map.

Meeting room is inside buiding 13, first floor, somewhat in the middle of the (rather large) campus.

Take entrance to building 13 located in middle of the buiding (either way), on first floor, left, there is a digit code to enter our corridor, but there will be also people around who could open the door for you. The meeting room is salle 'Grande Ourse', second door on the right in the entry corridor.
