Session 5 : Double Beta Decay and nuclear matrix element (09:00 - 10:50)

time	[id] title	presenter
09:00	[61] QRPA calculations of double beta decay processes : critical review of methods and results	OSVALDO CIVITARESE
09:30	[62] Shell Model calculations of double beta decay processes : critical review of methods and results	ALFREDO POVES
10:00	[63] Description of the double beta decay within the continuum-QRPA	VADIM RODIN
10:20	Coffee Break
