Interactions simples et multiples entre partons dans les nucléons - Amphi Bloch (2:00 PM - 3:40 PM)

time	[id] title	presenter
2:00 PM	[12] First measurement of transverse-spin-dependent azimuthal asymmetries in the Drell-Yan process	PLATCHKOV, Stéphane
2:30 PM	[13] Monte-Carlo event generation with radiative QED processes in deep-inelastic scattering	PIERRE, Nicolas
2:50 PM	[14] Scale dependent hadrons light front wave function	TRAWINSKI, Arkadiusz
3:20 PM	[15] Hard photoproduction of a diphoton with a large invariant mass	PEDRAK, Aleksandra

Interactions simples et multiples entre partons dans les nucléons - Amphi Bloch (4:00 PM - 5:30 PM)

time	[id] title	presenter
4:00 PM	[16] Covariant extension of the GPD overlap representation at low Fock states	CHOUIKA, Nabil
4:30 PM	[17] Parton distribution amplitudes: revealing diquarks in the proton and Roper resonances	MEZRAG, Cédric
5:00 PM	[18] Hadron energy-momentum tensor and mass decomposition	LORCÉ, Cédric
