

OpenQMBP2023: New perspectives in the out-of-equilibrium dynamics of
open many-body quantum systems

ID de Contribution: 67

Type: **Non spécifié**

Anomalous fluctuations

mardi 27 juin 2023 14:30 (20 minutes)

I will discuss several examples of non-ergodic dynamical systems with anomalous charge fluctuations.

Orateur: ILIEVSKI, Enej (University of Ljubljana)

Classification de Session: Conference: Transport, Generalised Hydrodynamics and open systems
