

# Core2disk III

## jeudi 28 septembre 2023

### Gas ionization, chemistry (09:30 - 12:30)

| time  | [id] title   | presenter      |
|-------|--|----------------|
| 09:30 | [19] Redaelli (how to measure ionization from observations of cores) |                |
| 10:10 | [20] Le Gal (chemistry & ionisation in disks, MAPS etc)              | LE GAL, Romane |
| 10:50 | [21] Discussion in amphitheater / coffee                             |                |
| 11:50 | [22] Pineda (ionization in NGC1333)                                  |                |
| 12:05 | [23] Girart (obs ionization B335)                                    |                |
