## vendredi 29 septembre 2023

### Dust evolution, polarization (09:30 - 13:05)

time	[id] title	presenter
09:30	[24] Kataoka (scattering, dust properties in disks)	KATAOKA, Akimasa
10:10	[25] Maury (polar and dust evolution in protostars)	MAURY, Anaëlle
10:50	[26] Discussion in amphitheater / coffee	
11:50	[64] Marchand (effect of grain size on coupling)	MARCHAND, Pierre
12:05	[27] Cacciapuoti (dust properties in L1527)	CACCIAPUOTI, Luca
12:20	[28] Lombart (models of dust evolution)	Dr LOMBART, Maxime
