

# Core2disk III

## lundi 16 octobre 2023

### Observations of PPD structures (Chair: Sylvie Cabrit) (09:30 - 12:30)

time	[id] title	presenter
09:30	[65] Myriam Benisty - Observational studies of disk structures	
10:15	[66] Jaehan Bae - Theoretical studies of disk structures	
11:00	[67] Coffee and discussion in the amphitheatre	
11:45	[68] Christophe Pinte - ALMA observations of planet-induced kinematic kinks in PPDs	
12:00	[69] Stefano Facchini - Novel observations of disk kinematics and chemistry promoting planet formation	
12:15	[70] Alexandros Ziampras - Radiation-hydrodynamic simulations of planet-induced gaps
