Synthetic predictions for MHD and PE winds vs observations (chair: Cabrit) (09:30 - 13:00)

time	[id] title	presenter
09:30	[114] J. Goodmann (thermo-chemistry and radiative transfer in PE and MHD disk winds)	
10:05	[115] Gressel (heating and ionization in irradiated MHD disk winds)	
10:25	[116] Coffee break	
11:00	[117] Rab: synthetic predictions of line profiles for PE winds	
11:20	[118] Tabone: signatures of MHD disk winds vs observations	
11:40	[119] summary on PE wind benchmarks from week 2	
12:00	[120] Discussion: how to discriminate between MHD and PE disk winds ?
