

Core2disk III

jeudi 12 octobre 2023

Alternative interpretations (chair: Hennebelle) (09:30 - 12:30)

time	[id] title	presenter
09:30	[121] Shang: magnetized bubbles as integrated and unified outflows	
10:05	[122] Cabrit (Models of outflow entrainment in young stars)	
10:40	[123] Coffee break	
11:10	[124] Podio (infall streamers in class 1 and class 2 wind sources)	
11:30	[126] Lesur (effect of planet gaps on MHD DW sub-structure)	
11:50	[125] Discussion: how to discriminate between disk winds and entrainment ? (1h)
