Summary and Future Perspectives (chair: Tabone) (09:30 - 14:50)

time	[id] title	presenter
09:30	[127] Pinte (constraints on DW origin from disk kinematics)	
09:50	[128] Harrison (constraints on disk B-field from Zeeman measurements)	
10:10	[129] Coffee	
10:40	[130] Summary of progress made, major unsolved questions, and future paths (models, joint proposals, ELT opportunities...)	
14:30	[131] Fendt (dynamo-driven disk winds)
