

20th International Workshop on Radiative Properties of Hot Dense Matter

Wednesday, November 20, 2024

ICF (8:30 AM - 10:00 AM)

-Conveners: Christopher BOWEN

time	[id] title	presenter
8:30 AM	[141] Evaluation of Au L-shell spectroscopy as a Te diagnostic for NIF hohlraum plasmas	AYBAR, Nicholas
9:00 AM	[142] Evidence of gold NLTE model in the deficiency of NIF ICF Hohlraum x-ray drive prediction	CHEN, Hui
9:30 AM	[143] Understanding the effects of preheat from the Au M-band and L-band hohlraum radiation on EOS experiments	NILSEN, Joseph
